COTTONSOFT LTD LETTER OF INTRODUCTION FROM KIM CALVERT, NZ COUNTRY MANAGER

Cottonsoft is a New Zealand based business that has been in operation for over 30 years. In 2007, we strengthened our security of supply by joining global affiliates who provide access to a large share of the global pulp supply, in addition to a large number of global tissue paper and finished goods factories. While we benefit from this support, Cottonsoft is proudly New Zealand operated, including our leadership team and all key functions.

We are the largest New Zealand retail paper supplier across several categories and have expanded our offer into future-focussed categories, such as plastic free wipes, nappies, flushable wipes and plastic free cleaning products. Our B2B offer includes a wide range of products and quality dispensers.

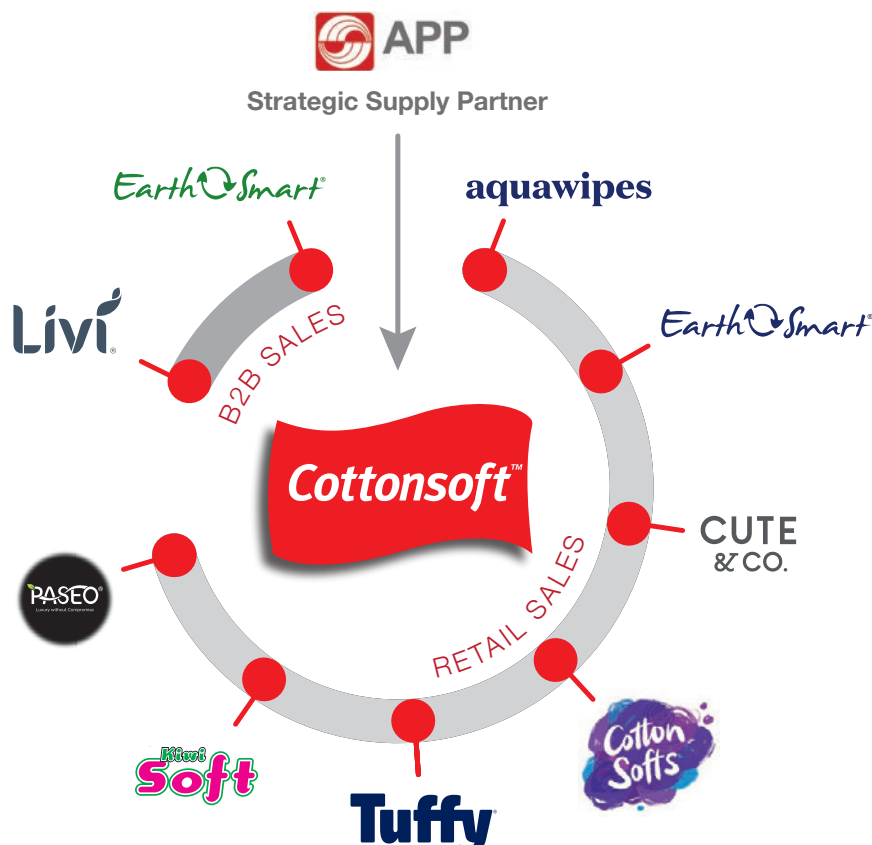

With access to global sourcing and multiple manufacturing locations, along with our innovative operations team, Cottonsoft provides our partners with excellent supply security as proven over the last few years.

Our locally based manufacturing, decision makers, and supply operations, makes Cottonsoft a responsive and agile partner. All our contacts and decision makers are onshore and easily available.

Our Strategic Supplier, APP, is committed to achieving sustainable forest management, balancing conservation with production aspects through a landscape approach.

Vision 2030 - 30% reduction in emissions by 2030

- 13% reduction in carbon intensity since 2018 (SDG 6,13)
- 59% renewable fuel use in 2020 (SDG 6,13)
- 100% sustainably managed fibre supply (SDG 12,13)

Company History & Experience

Our Story

With over 30 years tissue experience, Cottonsoft is now the NZ Market leader with the skill, expertise and growth momentum to lead sustainable growth into the future.

Our commitment to sustainability

Trees planted daily around the globe

We have a strict **ZERO** DEFORESTATION policy and our suppliers are committed to **REPLANTING 1,000,000** trees a day

We work with global suppliers that **share our sustainability values**

Asia Pulp and Paper (APP) is our preferred supplier for both product supply and technology guidance. APP have set goals to produce products with a smaller environmental footprint by reducing production emission.

APP 2030 Sustainability Road Map

- 30% reduction in carbon intensity
- 50% increased use of renewable fuel
- 25% reduction in energy intensity
- 30% reduction in water intensity
- 30% COD emissions lower than local regulations
- Zero waste to landfill
- Minimum recycled fibre composition in appropriate products
- Increased product biodegradability and resource efficiency

**FIBRE
SOURCING**

100% Fibre supply from sustainably-managed plantations.
40% Fibre was from recycled sources.
38 Pulpwood supplier's concessions are completed ISFMPs.
Zero Natural forest conversion by APP pulpwood suppliers since 2013. ✓

REFORESTATION

Continue supporting the protection and restoration of natural forest inside and outside APP pulpwood suppliers' concession through landscape approach.
24,000 ha areas with restoration progress. ✓

**CONSERVATION
& BIODIVERSITY**

Total protected area **600,000 ha**.
 <1% forest degradation in protected area in the past 3 years. ✓

CLIMATE CHANGE

Continue to develop and improve our approach to Peatland Best Practice Management Program. →

64% avoidance of carbon emission due to FCP implementation compared to BAU. ✓

Asia Pulp & Paper (APP) Sinar Mas is committed to achieving sustainable forest management, balancing conservation with production aspects through a landscape approach. We work to protect and restore natural forest in concession areas as well as optimising forest management to ensure sufficient supply of raw material from our existing plantations to supply our pulp mills.

This is important, not only for the sustainability of Cottonsoft paper products, but for the preservation of natural forests and the communities that live within and around them.

Over half a million hectares of natural forests conserved

100% Certified Sustainable

Environmental responsibility is critical to our business. As a socially, economically, and environmentally responsible company, we adhere to stringent Australian and international environmental laws, only sourcing our fibre from internationally certified suppliers;

You can be assured that all Livi paper products are PEFC certified and plastic packaging is soft plastic recyclable, through the soft plastic recycling program to which Cottonsoft Ltd are a founding member. Through this scheme:

- **30 Million packs** recycled in last 5 years.
- Plastic recycled into FuturePosts in 2021 ALONE could fence 170km of road from Tauranga to Auckland!

A significant number of Livi tissue products are licenced to display the Environmental Choice New Zealand (ECNZ) ecolabel, giving our customers complete peace of mind and reassurance that we operate sustainably and responsibly.

We use Rapidly Renewable Fibre from fast-growing eucalyptus and acacia trees that reach full height and maturity in only 6-8 years.

This enables shorter harvest cycles yielding more paper from more trees on less land and in less time.

That's true sustainability in paper!
